

Graphic Images of Sexually Transmitted Infections (DVD)

About the DVD

This DVD contains a presentation of graphic images of the 12 most common Sexually Transmitted Infections (STIs). The presentation is also available as a CD-ROM. Two presentations – one with accompanying text, and one without, are available on the CD-ROM. The DVD version contains only the presentation without text. Supporting notes for the version used on the DVD are available to download from the Red Knob website at www.theredknob.com in the free downloads section; the notes contain information on STIs; name and slang terms; how they are caught; symptoms; effects; treatments; and prevention.

Recommendations for Use

The content of the DVD has been compiled by Red Knob Ltd to enable professionals and workers who work with young people to provide a demonstration of the effects of Sexually Transmitted Infections. It will be of especial use to school nurses, youth workers, and teachers engaged in the delivery of Sex and Relationships Education (SRE); it may also be of use to health professionals working in Genito-Urinary Medicine.

Please note that if used in the delivery of SRE, the presentation should be accompanied by other information and activities around STI prevention and condom use. The DVD is intended to complement a programme of activities on sexual health issues; it is not intended to act as a stand-alone resource.

Please familiarise yourself with the contents of the DVD and the downloaded supporting notes prior to using it in a presentation.
